Press Release

ACT\EXPOCAD ACQUIRES AREAGRAPH SYSTEMS, LLC.

Aurora, IL, December 13, 2006: A.C.T. Inc., the producers of EXPOCAD[®], have acquired AreaGraph Solutions, LLC, Atlanta, GA. AreaGraph provides a drag and drop graphics program for the desktop and Internet for exhibit, meeting and exhibition managers, exhibit design houses and general service contractors. The easy to use AreaGraph interface is dimensionally accurate for layouts of exhibit footprints. Exhibit components, utilities management, meeting and banquet rooms can be designed in minutes and will integrate directly with EXPOCAD[®] or EXPOCAD Contractor for AutoCAD[®]. Exhibitors large and small, general service contractors and show management will benefit by using EXPOCAD AreaGraph. Accurate foot prints of booth and meeting rooms are easily produced increasing the level of customer service eliminating unnecessary labor charges due to on-the-fly relocations or poorly communicated layouts. .

Dave Berzack, CEO of AreaGraph says that, "ACT is the leader in the industry and AreaGraph is a perfect addition to the EXPOCAD integrated product line. We are looking forward to being a part of the EXPOCAD[®] family. "

"I couldn't be more delighted to the addition of AreaGraph to our integrated EXPOCAD[®] product line for the desktop and Internet." says Chief Executive Officer Rich Stone. The AreaGraph drag and drop design capabilities will raise the level and extend the range of customer service our customers can provide to exhibitors."
