

EXPOCAD[®]

CONTRACTOR

Automation Designed Exclusively for General Contractors and AutoCAD[®] Users

-  Pioneering Automation— Leading An Industry
-  Reduce Design Time and Overhead
-  Increase Productivity & Accuracy
-  Drastically Reduce Labor Costs
-  Intensify Customer Communications

40 Seconds vs. *40 Hours* is the Time Differentiator Between Using EXPOCAD[®] CONTRACTOR For AutoCAD[®] and the Current Method of Using AutoCAD[®] Stand-alone Software.

EXPOCAD Contractor for AutoCAD[®] is innovative technology at its finest. A.C.T. has created a program that adds automation where none existed before. Our designers now create dimensionally accurate, ready to use floor plan layouts in minutes by utilizing the many automated menu commands. We can also utilize many EXPOCAD-like features such as automatic booth and aisle numbering, combine booths, un-combine, move booth, zoom booth and more. Freeman has now implemented this extraordinary program in all our offices across the country.

Jay Atherton, EVP of Operations
The Freeman Companies
Dallas, TX
